

ADVANCING  
WASHINGTON'S INTERESTS

## BUSINESS AND FINANCE

EDITED BY  
WILLIAM M. CONRADCrissinger Calls for  
Banking Statements

Big demands for funds to pay government income taxes as well as to secure Treasury certificates of indebtedness as investments caused considerable withdrawals from deposits of some Washington banks during the past two months, according to figures being compiled today in reply to the call of Comptroller of the Currency Crissinger for the condition of the banks as of June 30.

The American Security and Trust Company shows deposits of \$21,523,276.24, which is a decline of about \$450,000 from the figures submitted at the last call of the Comptroller, in April. The Washington Loan and Trust Company, with deposits of \$10,201,773.89, also shows a decline of about \$400,000 since the last call, while the National Savings and Trust Company, with deposits of \$8,958,131.20, declined about \$500,000.

These showings, in view of the large amounts of deposits, are regarded as keeping abreast with the times, and of only fractional fluctuations, which will speedily be recovered as the market for high grade Government investment opportunity as well as that in the stock market at low prices closes up.

At the Riggs National Bank as well as the Commercial Bank of Washington, the figures for the comptroller had not been compiled up to noon today, and no approximate figures could be secured.

In the list of gains since the last call of the Comptroller, the Merchants Bank showed the largest figure in the list checked up, there being a gain of \$200,774.34, with total deposits of \$2,208,048.67.

The Franklin National Bank, with deposits of \$2,200,792.42, also showed an advance of approximately \$100,000, while the Security Savings and Commercial Bank gained \$76,072.40. This institution has total deposits of \$3,246,015.85.

The Farmers and Mechanics' Bank of Georgetown shows a gain of over \$60,000 on its total deposits of \$2,157,266.77, while the Citizens' Savings Bank also gains \$30,181.63 on its total deposits of \$1,157,266.77. The Federal National Bank, showing deposits of \$4,027,743.08, shows a decline since the last call of \$121,177.48, while the Mt. Vernon Savings Bank, with deposits of \$1,518,629.42, shows about \$90,000 since the last call.

MR. HAYNES AT VENTNOR.  
President Harry V. Haynes of the Farmers and Mechanics' National Bank of Georgetown is spending a vacation season with his family at Ventnor, N. J.

**Liverpool Cotton Market.**  
LIVERPOOL, July 5.—Spot cotton was quiet at the beginning of business here today. Prices were steady. Sales were 5,000 bales.  
American middlings, fair: 10.21; good middlings, 8.40; middlings, 8.06; middlings, 7.56; low middlings, 6.56; good ordinary, 5.31; ordinary, 4.56. Futures opened quiet.

**Foreign Exchange.**  
NEW YORK, July 5.—The foreign exchange market opened steady today, with demand sterling 1/4 cent lower at 33.73. Francs were changed to \$2.02 for cables and \$2.01 for checks. Lires yielded 2 points to 4.91 for cables and 4.90 for checks. Belgians were changed to 7.96 for cables and 7.96 for checks.  
Other quotations are: Guilders cables 32.90, checks 32.85; Swiss francs cables 21.88, checks 21.83; marks 1.35.

Dec., 40 1/4c.

**BOYS CONVERT FAMILY  
AUTOS INTO POP GUNS**  
DELANCO, N. J., July 6.—Chief of Police Hahner is wondering whether the anti-fireworks law cannot be stretched in another year to all obnoxious noise devices. Loud reports that sounded like anti-aircraft shells going into action shortly after midnight made the chief think half the town was violating the ordinance against firecrackers and pistols.

He hurried to investigate and found only a couple of young Americans, who, denied the privilege of firing a cartridge salute to the absent Independence Day, had backed their fathers' automobiles out of their respective garages and were working the levers to cause a noisy explosion in the exhaust. Satisfied in having aroused at least one citizen, the boys put the cars away when they saw the cops and then went back to bed.

Irregular Market in New York  
Sees Mexican "Pete" Still  
Declining.

NEW YORK, July 5.—The stock market opened irregular this morning with weakness again shown in the Mexican shares.

Mexican Petroleum fell over five points to another new low record for the year of 93 1/2, and Pan American Petroleum yielded over two points to 42 1/2, while General Asphalt broke over one point to 48 1/2.

Most of the other leading issues opened fractionally higher and then receded somewhat with trading on a very small scale. United States Steel opened unchanged at 74 1/2, and then yielded to 74 1/4. Studebaker started 1/2 higher, at 75 1/2, and then fell to 74 1/2. United States Rubber was again in supply, falling one point to 49 1/2 on expectation of the passing of the dividend tomorrow.

The railroad shares were fractionally higher, American Woolen was a strong feature, advancing over 1 point to 69 1/2.

Mexican Pete sold down to 92 1/2, a loss of nearly 7 points from the close on Friday. There was a good deal of interest attached to the fact that Edward P. Doheny, the leading interest in Mexican Pete, has not left this city, although he was reported as having sailed for England yesterday.

Royal Dutch was active and strong, moving up over three points to 56 1/2. The steel industrials were also heavy, Crucible Steel yielding over two points to 74 1/2, and U. S. Steel one point to 75 1/2. Baldwin ranged from 71 to 69 1/2.

U. S. Rubber, after yielding over one point in the early trading, recovered its loss before the end of the first hour. American Sugar Refining, which first dropped to 65 1/2, had a brief rally to about 71. Reading was a weak feature, falling 1 1/2 points to 65 1/2.

**NOTED SURGEON IS  
FAILURE AS HUSBY,  
SAYS WIFE IN SUIT**

Mrs. Marion Reynolds Says  
Doctor Has Too Much  
Genius for Her.

LOS ANGELES, July 5.—With the setting for trial at an early date in the superior court here of the divorce suit of Marion Reynolds, formerly Marion Hollenbeck, a wealthy New York widow, against Dr. Cecil E. Reynolds, noted brain specialist, it leaked out that the separation of the couple came about because Mrs. Reynolds alleged her husband's genius was a bar to domesticity.

Mrs. Reynolds was quoted by friends as stating that her association with her husband was a continual source of irritation to him in his profession and that instead of being a help to him in his work she appeared to be a handicap.

While the divorce records were secretly filed and their contents were not officially divulged, it was stated on good authority that the action was based on mental cruelty resulting from his alleged critical attitude towards her in their home life.

While a deep student of mental questions the psychology of married life has proved an enigma to him, according to the reported theory of his wife.

Mrs. Reynolds, while a resident of Los Angeles, kept her exact whereabouts a secret to her exact friends and intimates since the details of the divorce charges became known, and her attorneys have declined to discuss the case or to reveal her address.

It was learned that Mrs. Reynolds, then Mrs. Hollenbeck, was visiting in Los Angeles a few years ago that she first became acquainted with Dr. Reynolds. She took a deep interest in his life work at that time and their friendship culminated in marriage a little more than two years ago.

Dr. Reynolds and his bride left here in 1919 on a honeymoon trip to England, where the former was widely known as a physician and scientist and as a Fellow of the Royal College of Surgeons.

In Los Angeles Dr. Reynolds has achieved an enviable reputation as an expert alienist and is known among medical men for a number of successful and difficult surgical operations on the brain and spinal cord.

Mrs. Reynolds has means of her own and will not ask for alimony, it was stated.

**RATS STEAL NECKLACE  
AT HOTEL IN ROME**  
ROME, July 5.—Mrs. Helen Wenning, an Alsatian, living in a fashionable hotel here, recently reported to the police that she had missed a pearl necklace from her jewel case. Everything was done to find out what had become of the gem. Detectives interviewed hotel employees, but no clue could be found.

A day or two later, one of the men searching about the nooks and corners of Mrs. Wenning's room found a piece of the necklace near a small hole in the floor. A thorough investigation was then made, and the detectives concluded that rats had stolen her pearls.

**Hot Water Fatal to Child.**  
ROSEMONT, W. Va., July 5.—Burns received when she fell into a dishpan of hot water while her mother was scrubbing the floor, resulted in the death of Mildred Feizer, aged two years, daughter of Samuel Feizer. The mother, whose back was turned at the time of the accident, scalded her hands in taking the child from the water.

STERS, PTERED BY  
CHAKE AND FRE, TO  
MEET AGAIN SOON

Mrs. Lillie Thain and Belle Wilton Were Separated by Frisco Disaster.

SAN FRANCISCO, July 5.—Sisters separated by the great fire and earthquake of 1906, each believing the other dead, were reunited through the medium of the printed page.

An appeal to Capt. James Quinn, clerk to Chief of Police Daniel O'Brien, from Lillie Queenie Baker Thain to assist her in getting back to the United States from her internment camp in Budapest, Hungary, is to bring a reunion of the sisters after fifteen years of silence.

Belle Baker Wilton, vaudeville actress, now in New York city, read in a newspaper dispatch of her sister's appeal to Captain Quinn and the identification was established. Mrs. Thain, a widow with two children, soon will be on her way to New York to join her sister.

The sisters are the daughters of the late Capt. Joseph H. Baker, of the San Francisco police department.

The homes of both sisters were destroyed in the fire of 1906 and their names were published in the list of "victims."

Belle Wilton believed that both her sister and mother had perished.

And Mrs. Baker and her daughter, reading the name of Belle among the dead, made their way to Europe.

Mrs. Baker died on her way to Vienna and the oncoming war found Lillie "an interned American" in a hostile country.

Recently Lillie wrote to Captain Quinn asking assistance in getting out of Hungary, where she had been striving to raise sufficient funds for that purpose. In that letter she stated that her mother and sister, Belle Wilton, had died in the San Francisco fire.

LOST GOLD MINE TO BE SOUGHT IN CANADA

EDMONTON, Alberta, July 5.—An expedition is being organized here to search for the lost gold mine of Lost river. The lost mine is one of the romantic traditions of the North. It is believed to be extremely rich.

A wandering Indian from the Mackenzie river country came here to St. John's several years ago with a gold nugget as big as a walnut. Fort St. John's is a fur post of the Hudson's Bay Company, and is in the northeastern tip of British Columbia, on the headwaters of the Peace. The Indian could not talk the language of the local tribesmen nor of the whites. He indicated in signs that he had found the lump in the dry bed of a stream northwest of the fort.

They dry river bed is thought to have been once the channel of the Peace. It is known as Lost river, though, except after heavy rains, it never contains water. It is twenty-five miles northwest of Fort St. John's.

9 DEAD, 3 KILLED BY HEAT IN GOTHAM

NEW YORK, July 5.—Cooling breezes and a decided drop in temperature early today brought relief to New York's ailing people, the most scorching day in the city's history.

Three deaths occurred on the Fourth directly from the heat. Scores were prostrated. Nine persons who sought relief from the heat by going swimming were drowned. The police declared this was an unusually low number of drownings, however, considering the thousands of persons who were in the water.

One youth, whose body has not been identified, jumped into the reservoir in Central Park and was drowned in the sight of hundreds. No one offered to go to his assistance, thinking he was simply taking a swim. The police said he was crazed by the heat.

WOMAN MISSING AFTER STARTING FOR SWIM

ATLANTIC CITY, N. J., July 5.—Captain of Detectives John Bernshaw is personally directing the case of Mrs. Lawrence Oakley, of Mamaroneck, N. Y., who had been missing from her hotel since last Thursday.

One theory is that she was drowned in the ocean. Another opinion is expressed that possibly the woman, who may be suffering from amnesia, may have left town for another city. Mrs. Oakley left her hotel on Thursday morning with the intention of taking an ocean bath.
